Lester Snow 8/14/99

Executive Director, CALFED

1416 Ninth St.

Sacramento, CA 95814

Dear Mr. Snow:

This letter is in response to the revised CALFED plan. I do not agree with CALFED's plan to increase surface water storage in the Central Valley by raising existing dams. Segments of the upper Sacramento & McCloud rivers would be flooded by raising the Shasta dam.

I would rather CALFED to expand water efficiency, conservation, & reclamation programs to stretch our existing water supplies, instead of building new dams & canals. Switching to higher value & less water consumptive crops & installing water meters for agricultural & urban users would help in this matter.

I would appreciate a response to this letter; thank you for your time & consideration.

Sincerely,

Brandi Johnson
