0022

RAINFOREST ACTION NETWORK works to protect the world's rainforests and defend the rights of their inhabitants from companies like Home Depot, Burger King, Texaco and more. Fight for the future by fighting to save the rainforests! For more information, call 1.800.989.RAIN or visit us at www.rainforest.org.

Please adopt a Calfed plan that:

1. Maximizes water conservation and efficiency
2. Removes barrier dams, increases instream flows, acquires and restores habitat for fish + wildlife
3. Does not rely on proposed dam raises or new offstream storage.

Thank you.
