Dear Mr. Snow:

Please consider this letter a response to the revised CALFED Plan.

I oppose CALFED's plan to increase surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs.

I urge CALFED to expand water efficiency, conservation, and reclamation programs to stretch our existing water supplies instead of building new dams and canals.

I support CALFED's proposed restoration goals for the Central Valley, including removing some facilities such as the Englebright dam, that act as barriers to Salmon, acquiring important riparian habitat, and

increasing instream flow for fish, wildlife and recreation.

As a registered California voter I urge you to use my tax dollars in ways that would benefit people, yet conserve our rivers and wildlife habitats.

Thank you for your time and consideration.

Sincerely,

Flor Hunt
