Sacramento, CA 95814

September 11, 1999

Dear Executive Director Snow,

I am writing you regarding some concerns I have with the CALFED Bay/Delta program. First and foremost, I urge that the program be revised to EXCLUDE the building of any new or expanded dams, reservoirs, or canals during the first seven years of the program ("stage 1"). Taxpayers should not be made to subsidize new or expanded dams, reservoirs, or canals.

I would like to see the program put more emphasis on water conservation and efficiency, as well as improving water quality for people and wildlife through efforts to stop source pollution.

Finally, our rivers, bays, and fisheries need to be protected and restored by providing more fresh water flows and preserving the integrity of the land around our rivers.

I would appreciate it if you would enter these comments into the formal record for your Draft Programmatic Environmental Impact Report and Statement.

Thank you,

Graham Wehmeier
