CALFED BAY-DELTA PROGRAM

Public Comment

Date Sept 11, 1999

The CALFED Bay-Delta Program welcomes your participation. Please use the space below for your written comments (attach additional sheets if necessary).

Comments:

We need to encourage people (with demonstration projects at fairs, garden shows, certain homes) to plant drought resistant especially native California plants in place of their lawns which consume so much water. New developments are adding lawns to many cities we need to encourage developers to replace lawns with native flowers which require far less water.
