Mr. Lester Snow, *Executive Director*
CALFED Bay-Delta Program
1416 Ninth Street, Suite 1155
Sacramento, CA 95814

SEP 17 1999

Dear Mr. Snow,

Your agency's bias towards further dam construction poses a grave peril to California's wild fish, including its native salmon, trout and steelhead.

While we all understand that human needs must be balanced with the needs of animals, there is no balance in destroying California's rivers and streams for the benefit of agribusiness giants.

The millions of Californians who enjoy, and depend on, California's outdoors don't need more dams — they need better water conservation and management.

I urge you to use the forces of the free market to encourage the development of new efficiencies. This will save California's wilderness, boost conservation, and benefit everyone in the long run. Please write me back to let me know where you stand on this important issue.

Very truly yours, Signature

Dear Sirs;

Having farmed for many years in Northern California I am well aware of the problems you face.

I am not a radical enviro-person but still love California and hope to see it continue Green & Gold

yours
