Mr Lester Snow
Exec. Dir. CALFED
1416 Ninth St
Sacramento, CA 95814

Dear Mr. Snow:

I oppose the plan of CALFED to increase water storage in the Central Valley.

I strongly urge CALFED to find other means of water conservation such as tighter controls on existing water supply.

We have seen too much of environmental desaster by impulsive damming of our natural resources.

Please re-think this issue and help save our recreational treasures for future generations.

Once a river is dammed it is forever gone.

Thank you,
