Lester Snow
Executive Director, CALFED
1416 Ninth Street
Sacramento, CA 95814

Dear Mr. Snow:

This letter is to be considered an opposition to the revised CALFED plan.

I am at present on a river rafting trip, and I believe that the rivers of California need to be preserved for the enjoyment of future generations.

I ardently urge the ~~city~~ state to employ sound methods that will both seek to preserve these natural treasures, and provide an efficient way in which to thrive the ~~indus~~ agricultural industry can continue unabated. ~~I fully realize that~~ Please be sure to look to the future before putting your seal of approval on any plan that affects the fate of California's rivers.

Sincerely,

John J. Rose
