8/21/99 0423

Dear Lester Snow:

SEP 0 3 1999

I am very concerned about some information I have heard about increasing surface water storage in the Central Valley by raising existing dams or building new offstream storage reservoirs.

It is my understanding that there may be better ways to conserve water rather than building more dams and flooding areas.

Please explain to me what alternatives there are to dams and flooding. Please reply to me at:

Eileen Lewis
10700 Laburnham Cir.
Truckee, CA 96161

Thank you for your time.

Sincerely:

Eileen Lewis
