9/11/99

Dear Mr. Snow:

After spending a beautiful day on the American River, I realize how important it is to keep ~~our~~ the few natural places in California natural.

I am very disturbed to hear of CALFED's attempt to raise the Shasta dam and flood the upper Sacramento & McCloud rivers.

I urge CALFED to consider expanding water efficiency, reclamation, & conservation instead of building dams.

California's grave ecological problems are not going to be solved by building more dams.

I would appreciate a response to this letter.

Sincerely,

Hannah Silk
