SEP 13 1999

Dear Mr. Snow:

For your Draft Programmatic Environmental Impact Report + Statement, please enter my comments into the formal record.

I'm asking that the CALFED Bay/Delta program be revised as follows:

1) No building new or expanded dams reservoirs or canals during Stage 1.

2) No taxpayer subsidy of expanded or new dams, reservoirs or canals.

3) Restore California riverways and fisheries by providing more fresh water

4) More investment in water conservation; better drinking water treatment.

5) Prevent pollution at the source in order to provide better water quality

6) Better care for land around our rivers

Sincerely,

Joan Intrator
