Lester Snow
Executive Director
Cal Fed Bay / Delta Program
1416 Ninth St. Suite 1155
Sacramento, CA 95814

Dear Director Snow,

Please revise the Cal Fed Bay/Delta program to ~~not~~ building new dams, reservoirs or canals; prevent water pollution at the source; care for land around our rivers and streams to insure a fresh water flow; and, most of all, don't burden taxpayers with the enormous expense in regard to the building of dams, reservoirs & canals.

So many people are pleading with you at the hearings. Please enter these comments in your Environmental Impact Report.

Sincerely,
Mary Margaret Barbie
